SUMMARY

Java Full Stack Developer and 2026 Information Technology graduate with hands-on experience developing client-facing web applications using Java, Spring Boot, React.js, REST APIs, and MySQL. Experienced across backend development, frontend integration, database-driven applications, third-party service integration, debugging, and cloud deployment.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL
Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs
Frontend: React.js, HTML, CSS, Tailwind CSS
Databases: MySQL, MongoDB
Cloud & DevOps: AWS, Docker, Linux
Developer Tools: Git, GitHub, Maven, Postman, JUnit 5, MySQL Workbench

EXPERIENCE

Full Stack Developer Intern

Feb 2026 – Present

Ezio Infotech Pvt. Ltd.

- Contributed to multiple client-facing full-stack applications using **Java, Spring Boot, React.js, REST APIs, and databases**, working across frontend, backend, integration, and deployment activities.
- Developed features for **SocietyMS**, supporting resident and flat management, society entry workflows, maintenance management, and payment-related processes.
- Integrated **Google Cloud Vision** with SocietyMS to support payment verification workflows from submitted payment evidence.
- Contributed to **Tirumala Agro**, a farmer-focused platform supporting agricultural information, consultancy, consultant communication, and agricultural equipment selling.
- Collaborated with the development team during implementation and project presentations and gained hands-on experience deploying applications on **AWS**.

PROJECTS

FinTrack – AI-Based Smart Finance and Budgeting Platform | Java, Spring Boot, React.js, MySQL, NLP

- Designed the backend using Spring Boot and REST APIs with MySQL for financial data management and retrieval.
- Implemented JWT-based authentication, role-based authorization, and exception handling for secure application access.
- Applied NLP concepts to financial data analysis to generate personalized financial insights.

TalentIQ – Intelligent Candidate Evaluation and Recruitment | MERN Stack, MongoDB, REST APIs, AI/NLP

- Built an intelligent recruitment platform supporting resume parsing, skill extraction, candidate ranking, and AI-based proctored interviews.
- Designed a candidate ranking approach based on skills, experience, education, and job relevance.
- Integrated AI/NLP concepts for resume analysis, automated question generation, proctoring, and interview response evaluation.

EDUCATION

Bachelor of Technology in Information Technology

Aug 2022 – Jun 2026

SVKM Institute of Technology

CGPA: 7.67/10

Senior Secondary School (12th)

2022

Rashtriya Jr. College, Sambhaji Nagar

71.82%

Secondary School (10th)

2020

Dr. K.P.M.V. School, Chalisgaon

82.00%

ACHIEVEMENTS, RESEARCH & CERTIFICATIONS

- Research:** Co-authored a SCOPUS-indexed research paper on an AI-based finance platform (2025) and authored an Atlantis Press paper on TalentIQ: Intelligent Candidate Evaluation & Recruitment (2026).
- Academic Achievement:** Ranked among the **Top 10 students** in B.Tech Information Technology.
- Certification:** Programming Using Java – Infosys Springboard.
